AGUA

Introduction

Agua Fabrics is a UK-based market leader in performance upholstery fabrics. We have global reach supplying the contract market in: **Commercial, Cruise, Custodial, Education, Healthcare, Hospitality, Marine** and **Senior Living**.

A combination of technical knowledge with superb practicality and durability: Agua is a family owned business that has been supplying products to the contract market since the 1930s.

All upholstery collections are fire retardant to **BS7176 Crib 5** for **Medium Hazard areas** and **IMO Resolution A652(16) / IMO Annex 1 Part 8** for **Marine use**.

Using our eBrochure

This new Agua Fabrics eBrochure contains all of our current fabric range, and is updated regularly. It gives you fast access to all our collections and individual fabrics.

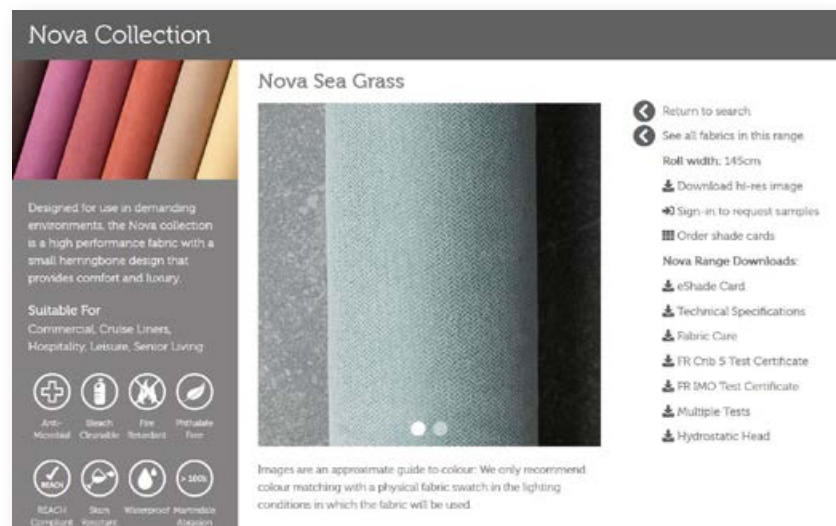

Why not join our mailing list so you don't miss out on any new products or eBrochure releases? You can join our mailing list [here](#).

How does it work?

Each range and fabric is linked to our website. If you click on a sample you like, you will be taken to that fabric's page on our website, where you can view that fabric's specifications in detail. If you like it, you can place an order for a sample, order a range sample card, or place an order request for the fabric via the website.

Click on a fabric and a hyperlink will take you to the website via your browser

Agua Fabrics website ▲

Using our eBrochure

Advanced fabric searches

Do you have particular project constraints? We recommend using the search engine on our website to narrow your choices and help you decide on the correct fabric. You will find our search engine [here](#).

▲ *Search engine on the Agua Fabrics website*

Colour matching

Fabric images on this PDF and our website are an approximate guide to colour: We only recommend colour matching with a physical fabric swatch in the lighting conditions in which the fabric will be used.

Viewing samples on screen

We encourage you to view the PDF at 100% screen zoom to avoid screen representation issues and moiré effects on patterned fabrics. These can alter the appearance of the fabric dramatically.

Task

aguaguard⁺ 365

Anti-Microbial Technology Powered by HeiQ ViroBlock

What is it?

A safe, highly advanced anti-bacterial protection system for upholstery fabrics, also effective against viruses including Covid-19.

Why bother?

The value of, and requirement for materials with these properties has been unequivocally validated by recent and ongoing global public healthcare crises.

Whilst research indicates viruses and bacteria survive longer on hard surfaces, soft surfaces like textiles can provide a large hosting area and benefit their carryover.

By keeping the textile free of viable viruses and bacteria, AguaGuard365 treated performance upholstery fabrics help to significantly minimise the potential for re-transmission of pathogens.

Safety, Sustainability and the Environment

AguaGuard365 is:

- Harmless to the skin and body
- Uses a minimum of active ingredients
- EU BPR (Biocidal Products Regulation) and EU REACH (Registration, Evaluation, Authorisation & Restriction of Chemicals) compliant.
- Carries Bluesign, EPA, Oekotex and ZDHC (Zero Discharge Of Hazardous Chemicals) approval and certification.

Find out more

PERFORMANCE UPHOLSTERY FABRICS

Pearl Collection

A sophisticated fabric with an intricate texture, elegant sheen and soft handle

Pearl Collection | v.37.0

Anti-Microbial

Bleach Cleanable

Fire Retardant
Crib 5/IMO

Stain Resistant

Waterproof

Martindale Abrasion
Severe Contract

Phthalate
Free

REACH
Compliant

Pearl

A sophisticated fabric with an intricate texture, elegant sheen and soft handle

Perfect for:

Commercial, cruise, hospitality, leisure and senior living

Fabric Specifications

<i>Flame retardant</i>	BS7176 Crib 5, BS EN 1021-1:2006 1&2, BS5852 Crib 5, IMO Annex 1 Part 8.
<i>Anti-bacterial/Anti-fungal</i>	Resistant to microbial or fungal growth including Salmonella, E Coli and MRSA.
<i>Waterproof</i>	Hydrostatic Head BS3424 > 1 metre.
<i>Martindale</i>	Severe Contract > 50,000.
<i>Stain resistant</i>	Excellent stain removal has been observed for grease, ink, blood, urine, coffee, iodine, betadine, ketchup, chewing gum, chocolate, grape juice.
<i>Composition</i>	100% Treated polyester.
<i>Breathable</i>	Moisture vapour permeable.
<i>Width</i>	140cm (55") wide.

Technical Information

- We recommend a minimum of 32 stitches per 10 cm (8 stitches per inch) and seams must have a minimum 12mm (0.5") bite on the fabric.
- Not suitable for use as removable loose covers.
- Please note that all fabric offered is subject to minor tolerance in respect of shade and other slight variations.
- Technical specifications may be amended, please check for the latest information.
- Please ask if you require a sample of the current batch available but be aware that stock can move quickly.
- Pearl can be colour co-ordinated with Agua faux leather collections to produce stunning furniture with dual textured finishes.
- Bespoke colours can be produced subject to minimum quantity orders.

Fabric Care

- Use a vacuum cleaner or soft brush to remove dust and solid particles.
- Always try cleaning products on a hidden piece of fabric to test suitability.
- Wipe frequently with a damp cloth to maintain the appearance of the fabric.
- All spillages should be removed immediately with a clean absorbent cloth.
- Poorly fixed clothing dyes, e.g. Denim, will cause permanent staining. Most stains can be removed using cold/warm water and a clean microfibre cloth.
- Stains from products containing oil and grease should be treated with a spirit based solution.
- Can be steam cleaned in situ.
- Can be cleaned with mild Hypochlorite solutions (up to 10,000 ppm of available chlorine - including Haz Tabs and Chlor-Clean) or Mineral Spirit for infection control purposes.
- If soap based cleaners are used, all soap residues must be rinsed from the fabric.
- Do not machine wash or dry clean.
- Remove all stains immediately before they set.
- Please refer to the Pearl Fabric Technical Specifications PDF download on the Agua website for further details.
- Do not use solvents, chemical agents, waxes or polishes as this will damage the surface of the fabric.

Our Environmental Policy

Our products have always been phthalate free and Reach* compliant. Our processes are non-toxic and the methods used during manufacture and finishing ensure that potentially hazardous accidental cross contamination is minimised to the greatest degree possible. All our fabrics meet the stringent Oeko-Tex**

standards, regardless of origin, so are free from harmful chemicals and safe for human use.

* Registration, Evaluation, Authorisation and Restriction of Chemicals (EU regulation: 18th December 2006)

** See more: www.oeko-tex.com

Alberta Hyde and Oregon Hyde

Distressed leather effect soft fabric and faux leather

Perfect for:

Commercial, cruise, hospitality, leisure and senior living

Fabric Specifications

<i>Flame retardant</i>	BS7176 Crib 5, BS EN 1021-1:2006 1&2, BS5852 Crib 5, IMO Annex 1 Part 8.
<i>Anti-bacterial/Anti-fungal</i>	Resistant to microbial or fungal growth including Salmonella, E Coli and MRSA.
<i>Waterproof</i>	Hydrostatic Head BS3424 > 1 metre.
<i>Martindale</i>	Oregon Hyde: Severe Contract > 70,000. Alberta Hyde: Severe Contract > 100,000.
<i>Stain resistant</i>	Excellent stain removal has been observed for grease, ink, blood, urine, coffee, iodine, betadine, ketchup, chewing gum, chocolate, grape juice.
<i>Composition</i>	Oregon Hyde: 100% treated polyester; 137cm (54") wide. Alberta Hyde: 2% PU, 74% PVC, 12% polyester, 12% cotton; 140cm (55") wide.

Technical Information

We recommend a minimum of 32 stitches per 10 cm (8 stitches per inch) and seams must have a minimum 12mm (0.5") bite on the fabric.

Not suitable for use as removable loose covers.

Please note that all fabric offered is subject to minor tolerance in respect of shade and other slight variations.

Technical specifications may be amended, please check for the latest information.

Please ask if you require a sample of the current batch available but be aware that stock can move quickly.

Bespoke colours can be produced subject to minimum quantity orders.

Fabric Care

Use a vacuum cleaner or soft brush to remove dust and solid particles.

Always try cleaning products on a hidden piece of fabric to test suitability.

Wipe frequently with a damp cloth to maintain the appearance of the fabric.

All spillages should be removed immediately with a clean absorbent cloth.

Most stains can be removed using cold/warm water and a clean microfibre cloth, however poorly fixed clothing dyes may cause permanent staining.

Stains from products containing oil and grease should be treated with a spirit based solution.

If soap based cleaners are used, all soap residues must be rinsed from the fabric.

Can be cleaned with mild Hypochlorite solutions (up to 10,000 ppm of available chlorine - including Haz Tabs and Chlor-Clean) or Mineral Spirit for infection control purposes.

Can be steam cleaned in situ.

Do not machine wash or dry clean.

Remove all stains immediately before they set.

If soap based cleaners are used, all soap residues must be rinsed from the fabric.

Do not use solvents, chemical agents, waxes or polishes as this will damage the surface of the fabric.

Please refer to the Care Sheet on the Agua website for further details.

<i>Composition</i>	Weave - 2% Vinyl Acrylic, 74% PVC, 12% Polyester, 12% Cotton. Denim - 70% PVC, 30% Cotton. Ocular - 2% Vinyl Acrylic, 74% PVC, 8% Cotton, 16% Polyester.
<i>Width</i>	140cm (55") wide.
<i>Weight</i>	Denim - 650g ±5%. Weave & Ocular - 750g ±5%.

Technical Information

- We recommend a minimum of 32 stitches per 10 cm (8 stitches per inch) and seams must have a minimum 12mm (0.5") bite on the fabric.
- Parody can be colour co-ordinated with other Agua collections to produce stunning dual textured finishes.
- Please note that all fabric offered is subject to minor tolerance in respect of shade and other slight variations.
- Can be stitched, tacked and glued. Cannot be heat welded.
- Bespoke colours can be produced subject to minimum quantity orders.
- Technical specifications may be amended, please check for the latest information.
- Please ask if you require a sample of the current batch available but be aware that stock can move quickly.

Fabric Care

- Poorly fixed clothing dyes, e.g. denim, will cause permanent staining. Most stains can be removed using cold/warm water and a clean microfibre cloth.
- Use a vacuum cleaner or soft brush to remove dust and solid particles.
- Wipe frequently with a damp cloth to maintain the appearance of the fabric.
- Remove all stains immediately before they set. All spillages should be removed immediately with a clean absorbent cloth.
- If soap based cleaners are used, all soap residues must be rinsed from the fabric.
- Can be steam cleaned in situ.
- Do not machine wash or dry clean.
- Can be cleaned with mild Hypochlorite solutions (10,000 ppm of available chlorine) e.g.: Haz Tabs, Chlor-Clean. Continued use may cause discolouration and surface damage.
- Always try cleaning products on a hidden piece of fabric to test suitability.
- Do not use: solvents, abrasives, chemical agents, waxes or polishes as this will damage the surface of the fabric.
- Do not use marker pens on the back of the fabric.
- Please refer to the Parody Fabric Technical Specifications PDF download on the Agua website for further details.

Our Environmental Policy

Our products have always been phthalate free and Reach* compliant. Our processes are non-toxic and the methods used during manufacture and finishing ensure that potentially hazardous accidental cross contamination is minimised to the greatest degree possible. All our fabrics meet the stringent Oeko-Tex**

standards, regardless of origin, so are free from harmful chemicals and safe for human use.

* Registration, Evaluation, Authorisation and Restriction of Chemicals (EU regulation: 18th December 2006)

** See more: www.oeko-tex.com

Stretch

Multi-directional stretch for rounded furniture and pressure relief

Perfect for:

Commercial, leisure, hospitality and healthcare

Fabric Specifications

<i>Flame retardant</i>	BS7176 Crib 5, BS EN 1021-1:2006 1&2, BS5852 Crib 5, IMO Annex 1 Part 8
<i>Anti-bacterial/Anti-fungal</i>	Resistant to microbial or fungal growth including Salmonella, E Coli and MRSA
<i>Waterproof</i>	Hydrostatic Head BS3424 > 1 metre
<i>Breathable</i>	Moisture vapour permeable
<i>Martindale</i>	Severe Contract > 50,000
<i>Stain resistant</i>	Excellent stain removal has been observed for grease, ink, blood, urine, coffee, iodine, betadine, ketchup, chewing gum, chocolate, grape juice
<i>Composition</i>	100% Treated polyester. 135cm (53") wide

Technical Information

Bespoke colour schemes can be produced with minimum order quantities.

Please note that all fabric offered is subject to minor tolerance in respect of shade and other slight variations.

Technical specifications may be amended, please check for the latest information.

Please ask if you require a sample of the current batch available but be aware that stock can move quickly.

Fabric Care

Remove all stains immediately before they set.

Always try cleaning products on a hidden piece of fabric to test suitability.

Use a vacuum cleaner or soft brush to remove dust and solid particles.

Most stains can be removed using cold/warm water and a clean microfibre cloth.

Use cold water when treating stains caused by bodily fluids.

Stains from products containing oil and grease should be treated with a spirit based solution.

Clothing dyes and biro are very difficult to remove from any fabric and may cause permanent stains.

Do not use marker pens on the back of the fabric.

If soap based cleaners are used, all soap residues must be rinsed from the fabric.

For infection control situations this fabric can be cleaned with mild Hypochlorite solutions (10,000 ppm of available chlorine) e.g.: Tristel Fuse for Surfaces, Haz Tabs, Chlor-Clean. Continued use may cause discolouration and surface damage.

Can be steam cleaned in situ.

Do not machine wash or dry clean.

Do not use: solvents, abrasives, chemical agents, waxes or polishes.

Please refer to fabric care sheet on the Agua website for further details.

Can be stitched, tacked and glued. Cannot be heat welded.

Please note that all fabric offered is subject to minor tolerance in respect of shade and other slight variations.

Lunar can be colour co-ordinated with other Agua collections to produce stunning dual textured finishes.

Bespoke colours can be produced subject to minimum quantity orders.

Technical specifications may be amended, please check for the latest information.

Please ask if you require a sample of the current batch available but be aware that stock can move quickly.

Fabric Care

Use a vacuum cleaner or soft brush to remove dust and solid particles.

Always try cleaning products on a hidden piece of fabric to test suitability.

Wipe frequently with a damp cloth to maintain the appearance of the fabric.

All spillages should be removed immediately with a clean absorbent cloth.

Most stains can be removed using cold/warm water and a clean microfibre cloth, however poorly fixed clothing dyes may cause permanent staining.

Stains from products containing oil and grease should be treated with a spirit based solution.

If soap based cleaners are used, all soap residues must be rinsed from the fabric.

Can be cleaned with mild Hypochlorite solutions (up to 10,000 ppm of available chlorine - including Haz Tabs and Chlor-Clean) or Mineral Spirit for infection control purposes.

Can be steam cleaned in situ.

Do not machine wash or dry clean.

Do not use solvents, chemical agents, waxes or polishes as this will damage the surface of the fabric.

Use cold water when treating stains caused by bodily fluid.

Do not use marker pens on the back of the fabric.

Please refer to the Care Sheet on the Agua website for further details.

Aura UV

A unique UV resistant upholstery fabric for outdoor and indoor use.

Perfect for:

Commercial, cruise, hospitality, leisure and senior living

Fabric Specifications

<i>Flame retardant</i>	BS7176 Crib 5, BS EN 1021-1:2006 1&2, BS5852 Crib 5, IMO Annex 1 Part 8.
<i>Anti-bacterial/Anti-fungal</i>	Resistant to microbial or fungal growth including Salmonella, E Coli and MRSA.
<i>Waterproof</i>	Hydrostatic Head BS3424 > 1 metre.
<i>Martindale</i>	Severe Contract > 100,000.
<i>Stain resistant</i>	Excellent stain removal has been observed for grease, ink, blood, urine, coffee, iodine, betadine, ketchup, chewing gum, chocolate, grape juice.
<i>Composition</i>	100% Treated polyester. 145cm (57") wide.
<i>Breathable</i>	Moisture vapour permeable.
<i>UV resistant</i>	Colourfast to sunlight Grade 7/8.

Technical Information

- We recommend a minimum of 32 stitches per 10 cm (8 stitches per inch) and seams must have a minimum 12mm (0.5") bite on the fabric.
- Not suitable for use as removable loose covers.
- Please note that all fabric offered is subject to minor tolerance in respect of shade and other slight variations.
- Technical specifications may be amended, please check for the latest information.
- Please ask if you require a sample of the current batch available but be aware that stock can move quickly.
- Aura UV can be colour co-ordinated with Agua faux leather collections to produce stunning furniture with dual textured finishes.
- Bespoke colours can be produced subject to minimum quantity orders.

Fabric Care

- Use a vacuum cleaner or soft brush to remove dust and solid particles.
- Always try cleaning products on a hidden piece of fabric to test suitability.
- Wipe frequently with a damp cloth to maintain the appearance of the fabric.
- All spillages should be removed immediately with a clean absorbent cloth.
- Poorly fixed clothing dyes, e.g. Denim, will cause permanent staining. Most stains can be removed using cold/warm water and a clean microfibre cloth.
- Stains from products containing oil and grease should be treated with a spirit based solution.
- Can be steam cleaned in situ.
- Can be cleaned with mild Hypochlorite solutions (up to 10,000 ppm of available chlorine - including Haz Tabs and Chlor-Clean) or Mineral Spirit for infection control purposes.
- If soap based cleaners are used, all soap residues must be rinsed from the fabric.
- Do not machine wash or dry clean.
- Remove all stains immediately before they set.
- Please refer to the Aura UV Fabric Technical Specifications PDF download on the Agua website for further details.
- Do not use solvents, chemical agents, waxes or polishes as this will damage the surface of the fabric.

Our Environmental Policy

Our products have always been phthalate free and Reach* compliant. Our processes are non-toxic and the methods used during manufacture and finishing ensure that potentially hazardous accidental cross contamination is minimised to the greatest degree possible. All our fabrics meet the stringent Oeko-Tex**

standards, regardless of origin, so are free from harmful chemicals and safe for human use.

* Registration, Evaluation, Authorisation and Restriction of Chemicals (EU regulation: 18th December 2006)

** See more: www.oeko-tex.com

Tones

A beautifully soft indoor upholstery fabric giving the appearance of a traditional wool fabric.

Perfect for:

Commercial, cruise, hospitality, leisure and senior living.

Fabric Specifications

<i>Flame retardant</i>	BS7176 Crib 5, BS EN 1021-1:2006 1&2, BS5852 Crib 5, IMO Annex 1 Part 8.
<i>Anti-bacterial/Anti-fungal</i>	Resistant to microbial or fungal growth including Salmonella, E Coli and MRSA.
<i>Waterproof</i>	Hydrostatic Head BS3424 > 1 metre.
<i>Martindale</i>	Severe Contract > 100,000
<i>Stain resistant</i>	Excellent stain removal has been observed for grease, ink, blood, urine, coffee, iodine, betadine, ketchup, chewing gum, chocolate, grape juice.
<i>Breathable</i>	Moisture vapour permeable
<i>Composition</i>	100% Treated Polyester.
<i>Width</i>	140cm (55") wide.

Technical Information

We recommend a minimum of 32 stitches per 10 cm (8 stitches per inch) and seams must have a minimum 12mm (0.5") bite on the fabric.

Not suitable for use as removable loose covers.

Please note that all fabric offered is subject to minor tolerance in respect of shade and other slight variations.

Technical specifications may be amended, please check for the latest information.

Please ask if you require a sample of the current batch available but be aware that stock can move quickly.

Tones can be colour co-ordinated with Agua faux leather collections to produce stunning furniture with dual textured finishes.

Bespoke colours can be produced subject to minimum quantity orders.

Fabric Care

Use a vacuum cleaner or soft brush to remove dust and solid particles.

Always try cleaning products on a hidden piece of fabric to test suitability.

Wipe frequently with a damp cloth to maintain the appearance of the fabric.

All spillages should be removed immediately with a clean absorbent cloth.

Most stains can be removed using cold/warm water and a clean microfibre cloth, however poorly fixed clothing dyes may cause permanent staining.

Stains from products containing oil and grease should be treated with a spirit based solution.

If soap based cleaners are used, all soap residues must be rinsed from the fabric.

Can be cleaned with mild Hypochlorite solutions (up to 10,000 ppm of available chlorine - including Haz Tabs and Chlor-Clean) or Mineral Spirit for infection control purposes.

Can be steam cleaned in situ.

Do not machine wash or dry clean.

Remove all stains immediately before they set.

Please refer to the Care Sheet on the Agua website for further details.

Do not use solvents, chemical agents, waxes or polishes as this will damage the surface of the fabric.

PERFORMANCE UPHOLSTERY FABRICS

Sark Collection

Velvety feel fabric for indoor upholstery

Sark Collection | v. 20.3

Anti-Microbial

Bleach
Cleanable

Fire Retardant
Crib 5/IMO

Stain Resistant

Waterproof

Martindale Abrasion
Severe Contract

Phthalate
Free

REACH
Compliant

Sark

Velvety feel upholstery fabric with a creative blend of alluring and contemporary colours

Perfect for:

Commercial, cruise, hospitality, leisure and senior living

Fabric Specifications

<i>Flame retardant</i>	BS7176 Crib 5, BS EN 1021-1:2006 1&2, BS5852 Crib 5, IMO Annex 1 Part 8.
<i>Anti-bacterial/Anti-fungal</i>	Resistant to microbial or fungal growth including Salmonella, E Coli and MRSA.
<i>Waterproof</i>	Hydrostatic Head BS3424 > 1 metre.
<i>Breathable</i>	Moisture vapour permeable.
<i>Martindale</i>	Severe Contract > 70,000.
<i>Stain resistant</i>	Excellent stain removal has been observed for grease, ink, blood, urine, coffee, iodine, betadine, ketchup, chewing gum, chocolate, grape juice.
<i>Composition</i>	88% Treated polyester, 12%Treated Nylon.
<i>Width</i>	143cm (56") wide.

Technical Information

We recommend a minimum of 32 stitches per 10 cm (8 stitches per inch) and seams must have a minimum 12mm (0.5") bite on the fabric.

Not suitable for use as removable loose covers.

Please note that all fabric offered is subject to minor tolerance in respect of shade and other slight variations.

Sark can be colour co-ordinated with Agua faux leather collections to produce stunning furniture with dual textured finishes.

Technical specifications may be amended, please check for the latest information.

Please ask if you require a sample of the current batch available but be aware that stock can move quickly.

Fabric Care

Use a vacuum cleaner or soft brush to remove dust and solid particles.

Always try cleaning products on a hidden piece of fabric to test suitability.

Wipe frequently with a damp cloth to maintain the appearance of the fabric.

All spillages should be removed immediately with a clean absorbent cloth.

Most stains can be removed using cold/warm water and a clean microfibre cloth, however poorly fixed clothing dyes may cause permanent staining.

Stains from products containing oil and grease should be treated with a spirit based solution.

If soap based cleaners are used, all soap residues must be rinsed from the fabric.

Can be cleaned with mild Hypochlorite solutions (10,000 ppm of available chlorine) e.g.: Haz Tabs, Chlor-Clean. Continued use may cause discolouration and surface damage.

Do not use solvents, chemical agents, waxes or polishes as this will damage the surface of the fabric.

Can be steam cleaned in situ.

Do not machine wash or dry clean.

Remove all stains immediately before they set.

Please refer to the Care Sheet on the Agua website for further details.

Juno

A stunning contemporary chenille fabric with a blend of texture and softness for indoor upholstery.

Perfect for:

Commercial, cruise, hospitality, leisure and senior living.

Fabric Specifications

<i>Flame retardant</i>	BS7176 Crib 5, BS EN 1021-1:2006 1&2, BS5852 Crib 5, IMO Annex 1 Part 8.
<i>Anti-bacterial/Anti-fungal</i>	Resistant to microbial or fungal growth including Salmonella, E Coli and MRSA.
<i>Waterproof</i>	Hydrostatic Head BS3424 > 1 metre.
<i>Breathable</i>	Moisture vapour permeable.
<i>Martindale</i>	Severe Contract > 50,000.
<i>Stain resistant</i>	Excellent stain removal has been observed for grease, ink, blood, urine, coffee, iodine, betadine, ketchup, chewing gum, chocolate, grape juice.
<i>Composition</i>	100% Treated polyester.
<i>Width</i>	140cm (55") wide.

Technical Information

We recommend a minimum of 32 stitches per 10 cm (8 stitches per inch) and seams must have a minimum 12mm (0.5") bite on the fabric.

Not suitable for use as removable loose covers.

Please note that all fabric offered is subject to minor tolerance in respect of shade and other slight variations.

Juno can be colour co-ordinated with Agua faux leather collections to produce stunning furniture with dual textured finishes.

Technical specifications may be amended, please check for the latest information.

Please ask if you require a sample of the current batch available but be aware that stock can move quickly.

Fabric Care

Use a vacuum cleaner or soft brush to remove dust and solid particles.

Always try cleaning products on a hidden piece of fabric to test suitability.

Wipe frequently with a damp cloth to maintain the appearance of the fabric.

All spillages should be removed immediately with a clean absorbent cloth.

Most stains can be removed using cold/warm water and a clean microfibre cloth, however poorly fixed clothing dyes may cause permanent staining.

Stains from products containing oil and grease should be treated with a spirit based solution.

If soap based cleaners are used, all soap residues must be rinsed from the fabric.

Can be cleaned with mild Hypochlorite solutions (10,000 ppm of available chlorine) e.g.: Haz Tabs, Chlor-Clean. Continued use may cause discolouration and surface damage.

Do not use solvents, chemical agents, waxes or polishes as this will damage the surface of the fabric.

Can be steam cleaned in situ.

Do not machine wash or dry clean.

Remove all stains immediately before they set.

Please refer to the Care Sheet on the Agua website for further details.
