MINERAL COLLECTION

A flame retardant fabric collection suitable for curtains, bedding and upholstery

A flexible collection of six designs consisting of a watercolour floral, textured geometric, marble, textured stripe, weave effect and a semi-plain texture in five interchangeable colour groups. The designs and colours can be mixed and matched to create contemporary or more traditional interiors with subtle or bold contrasts. There is no limit to the number of different looks you can create to suit your interior design requirements.

Each design and colour can be printed onto your choice of base cloth suitable for bedding, curtains, upholstery and dim out curtains or blinds.
